CAREER OBJECTIVE

Frontend developer with over two years of hands-on experience in identifying web-based user interactions along with designing & implementing highly responsive user interface components by deploying React concepts. Proficient with CSS and JS Frameworks, with extensive knowledge of UX and user psychology, and writing application interface code via JavaScript and ReactJS workflows. Passionate about learning and development with a desire to expand my skillset. Eager to tackle more complex problems and continue to find ways to maximize user efficiency.

WORK EXPERIENCE

Front-End Developer

Freelance

Nov 2020– Present / Remote

- Created a Mobile app using Flutter for Venja Health.
- Part of a front-end team for a library management system developed using React and Sass with full inventory display and search functionality.
- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.
- Created a user experience that fetched, parsed, and formatted analytic data, and relayed it into React components.
- Designed and wrote code for 10+ new websites by deploying CSS, XHTML, JavaScript and React.
- Performed market research & competitive analysis to design & implement an interactive landing page via Tailwind & React.
- Designed and developed a price tracker using React.js and WebSocket's to increase target audience engagement by 15%.

Junior Web Developer

Real Biz Digital LTD

May 2020 - Oct 2020 / Nairobi, Remote

- Created a Mobile Responsive User Experience with CSS Flexbox that allowed cross-platform accessibility to the website on any device with primary use on mobile. This increased the number of 5-star User Experience/User Interface reviews by 360%
- Implemented front-end technical solutions to meet project requirements for creation of 5 new web pages.
- Enhanced user experience and accomplish webpage objectives by creating site structure, navigation, page optimization, and graphics integration.
- Operated Agile model-based projects and carried out user stories on the front end
- Assisted with 10-15 support requests/week including content updates, additions, styling changes, and front-end code fixes
